capturing personalities & relationships

Check [www.bycheryl.com](http://www.bycheryl.com) for more images and wedding information.

You'll be able to view your proof photos from your own personal computer. We use a viewing album with a 3D Page-Flipping interface. Also create a gallery on the internet of all the photos from your wedding. *This is a 30 day online ordering service.* We think this will add to your viewing enjoyment and you'll be able to share your memories with loved ones.

Cheryl Barton's primary interest in photography lies in recording moments of everyday beauty. Whether photographing fine architectural, crisp advertising, scenic landscapes, or tender wedding and children images, she captures the natural elegance inherent to the subject. Because every person or object has an essential beauty, Cheryl's portfolio is varied. She does not focus on just the portraiture or weddings because every subject she photographs serves as a constant inspiration and compliment to the rest. This is what sets her apart from the average photographer, and is why your results will be truly unique and memorable.
